

1.2 CSR Management

1.2.1 Basic Approach

The Fujifilm Group’s business originated with photographic film, a product for which lots of clean water and fresh air are essential to the manufacturing process. It is also a product which requires customers to “buy on trust,” since they cannot try it out beforehand. Thus, for the Fujifilm Group, an approach which emphasizes environmental conservation and maintaining the trust of stakeholders has been a major premise at the very foundations of our business activities. This approach is the starting point for our corporate social responsibility (CSR) activities and continues to be passed down within our Group, as the Fujifilm Group’s “DNA.”

1.2.2 Philosophical Concepts and Related Policies of the Fujifilm Group

Fujifilm Group established the Fujifilm Group Corporate Philosophy and Vision following the shift to a holding company structure in 2006. Founded on the spirit of contribution to advancement of society, improved health, environment protection and enhancement of the quality of life of people, by providing top-quality products and services with open, fair and clear workplace culture and leading-edge, proprietary technologies, we have established the Fujifilm Group Charter for Corporate Behavior and the Fujifilm Group Code of Conduct and implement them thoroughly throughout the Group. To ensure awareness and implementation by all employees, we established the Fujifilm Group’s Approach to CSR in 2006 and updated it in 2014 in step with social changes. Seven additional policies (environmental, social contribution, biodiversity, procurement, quality, occupational health and safety and global security trade and control) have been established to promote activities.

The Fujifilm Group’s Approach to CSR

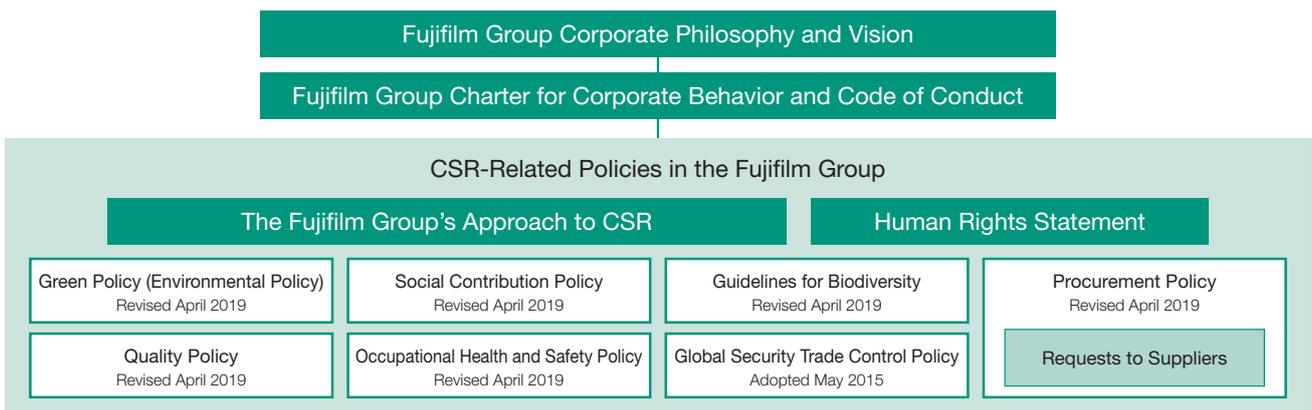

The Fujifilm Group’s approach to corporate social responsibility is to contribute to the sustainable development of society by putting our Corporate Philosophy into practice through sincere and fair business activities.

We will not only fulfill our economic and legal responsibilities, but also:

1. endeavor to understand global as well as local environmental and social issues and create value to address these issues through our business activities.
2. continue to evaluate the environmental and social impact of our business activities and strive to improve the performance while increasing our positive impact on society.
3. constantly reassess whether our activities are responding adequately to the demands and expectations of society through proactive stakeholder engagement with our stakeholders.
4. enhance corporate transparency by actively disclosing information.

Revised in February 2014

1.2.3 CSR Management System

The Fujifilm Group's CSR Promotion System

The Fujifilm Group established the ESG Committee (reorganized from CSR committee in June 2019) chaired by the President of FUJIFILM Holdings. The Committee takes decisions on the important matters relating to the CSR activities of the entire Group. The ESG Division of FUJIFILM Holdings, which is the Secretariat of the ESG Committee, is responsible ensuring rigorous CSR management by the Fujifilm Group. The Division considers the priority issues for the entire Group, discloses information outside, communicates with stakeholders, supports the CSR activities of Group companies, audits the CSR activities of the entire Group, and operation of the whistle-blowing offices.

Effective Management System

We implement IMS* across our seven business organizations to promote activities aimed at improving customer satisfaction. (For our environmental management system, please refer to 3.1. Environmental Policy and Management System.)

* Integrated management system (IMS): Management system integrating an environmental management system (EMS), quality management system (QMS), occupational health and safety assessment system (OHSAS) and information security management system (ISMS).

1.2.4 Relationship between CSR Planning and Management Planning

Under our corporate slogan “Value from Innovation,” our targets for contributing to building a sustainable society that complies with SDG's were announced in our Long-Term CSR Plan SVP2030 toward fiscal 2030 in July 2017. Our Medium-Term Management Plan VISION 2019 sets out the concrete business strategies to achieve these targets.

1.2.5 Communication with Stakeholders

Companies conduct their activities while interacting and maintaining relations with a wide variety of stakeholders, and it is important to listen carefully to their various views and expectations. At the Fujifilm Group, we ensure that we make appropriate information disclosures as well as verifying, at various opportunities, whether or not our business activities are responding to the demands and expectations of all our stakeholders, and reflecting our findings in our business activities. To ensure that our stakeholders' views are reflected in our CSR activities, we also review them in our Sustainability Report.

In addition to opinions relating to our CSR activities as a whole, regarding priority issues such as “Environment,” “Work Style,” etc., we conduct individual briefings on the content of the activities to external parties, to receive their advice and evaluation.* Looking back over our activities and obtaining the views of external parties in this way provides a good opportunity to reexamine our activities.
