### Ink Compatibility

Aqueous pigment or dye\*

### Handling

Use gloves when handling media. Before finishing, allow approximately 24 hours to dry

### Recommendations

### Storage & Use

Product should be stored under cool, dry conditions in its original packaging

### Recommendations

Temperature: 10-30°C

Relative Humidity: 35-65%

### Formats

SIZE	CORE	LENGTH	CAT NR.
610 mm (24")	2"	12 m	998591
1118 mm (44")	2"	12 m	998583

\* The use of aqueous dye ink will dramatically reduce image longevity. To determine longevity, testing in actual display conditions is required.

### FUJIFILM's tips!

Looking for a durable way to frame your canvases? Do not look any further and try our **Wunderbars framing systems**! The unique design of the bars, ensure that regardless of the hanging environment the canvases will remain under constant tension, eliminating sagging and rippling.

To make sure your canvas remains **even longer in top shape**, we recommend to apply the Hahnemuller varnish after the print is dry (available in gloss (996719) & satin (996721))
