# Fujiblox

LIGHT PHOTOMOUNT WITH A BIG IMPACT

Fujiblox will allow you to present your images in a creative way. A nice collection of Instagram images on your wall? Fujiblox is your solution! Fujiblox are easy to make and even easier to mount on your wall. Much lighter than a classic MDF.
LFP
print it **large!**

DISCOVER!
Instruction videos!

Step 1: Peel back a small section of the release liner.

Step 2: Place the photo panel into the alignment frame and fold back part of the release liner.

Step 3: Position your image using the alignment frame.

Step 4: Secure a corner of your print using the area of adhesive you exposed earlier.

Step 5: Remove the rest of the release liner and apply even pressure using a roller.

Step 6: Place your photo panel face down on a cutting mat and use a rotary cutter or craft knife to remove the excess paper from the edges.

Step 7: Insert the desk stand into one of the pre drilled holes on smaller frames or use the slits on the back of larger frames to display your finished photo panel.

What you need: Cutting mats, alignment tools and rollers are all available from JetMaster display systems, contact us for further details. Rotary cutters and craft knives are available separately.
