

Case Study

# The Tokyo Tower Welcome Lounge

FP-Z5000 was adopted in the welcome lounge on the 1st floor of Tokyo Tower Foot Town.

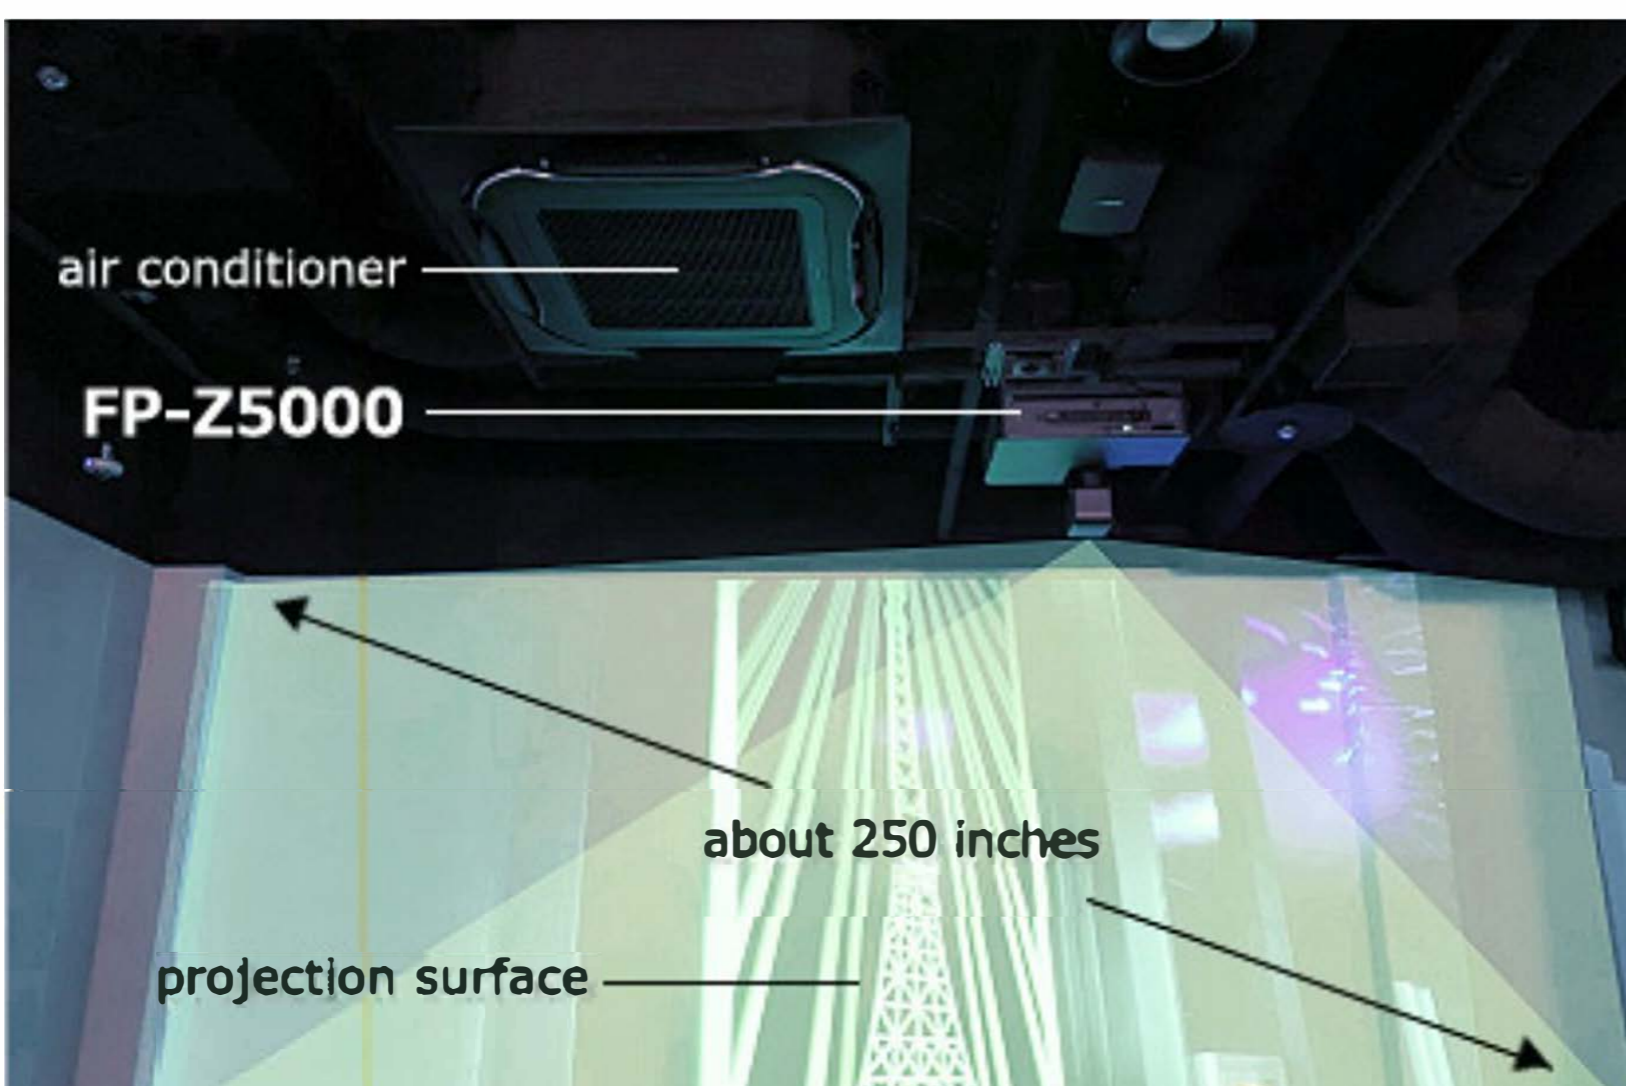

## 60th Anniversary Grand Reopening

The Welcome Lounge on the first floor of Foot Town has been renovated in commemoration of the grand reopening of the Tokyo Tower deck. Introductory video which has the screen size by 5.5m of length and 3 meter of width is projected onto four walls in the lounge.

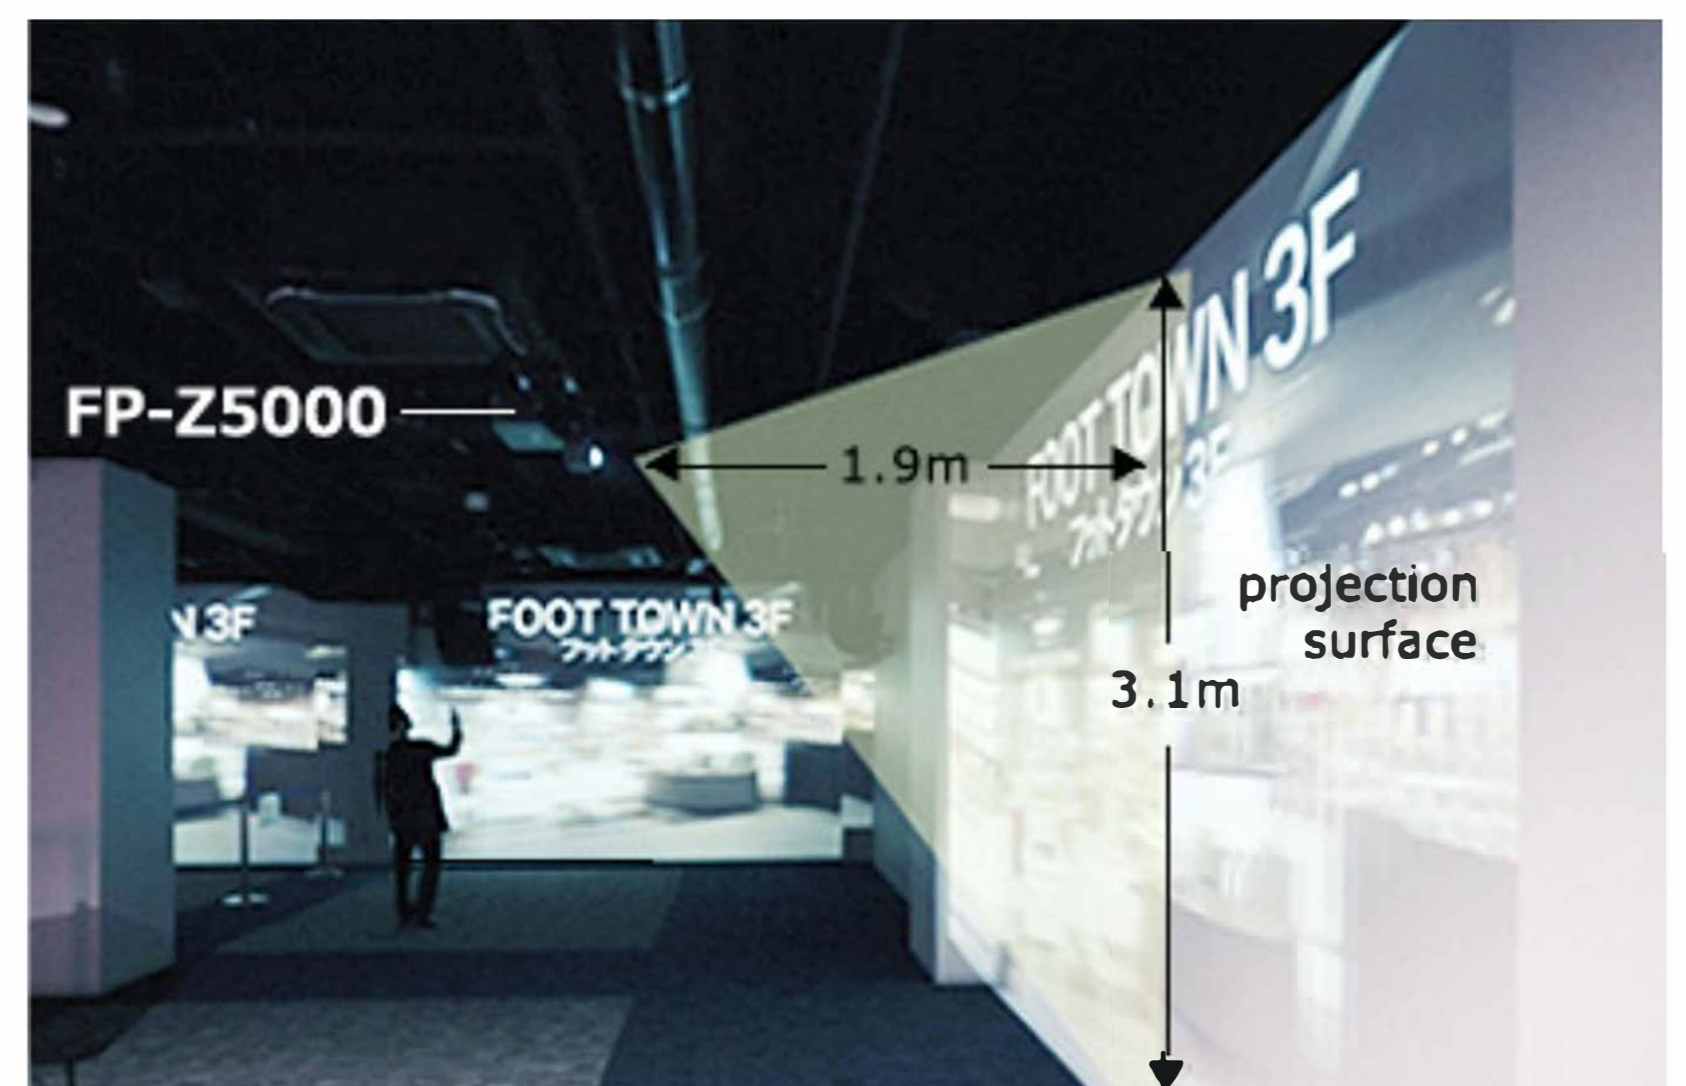

## Expanding the space with ultra-short throw and wide shift

A 250-inch-wide image is projected on four walls at a distance of less than 2 meters. The FP-Z5000's wide shift and ultra-short throw enabled images to be projected all across the viewing space.

Installation without the air conditioner getting in the way

Dynamic projection with ultra-short throw
