Operating Your New Product

Most questions about setting up and operating your printer should be answered in the owner's manual. [Click here](#) to download your owner's manual or update your printer's drivers and software.

Contact Us

For technical support on your Fujifilm printer, please call [1-800-800-3854](tel:1-800-800-3854) option #6. Mon-Fri from 9 am EST- 8 pm EST. This includes Saturday & Sunday from 10 am EST - 6 pm EST. Please have your printer's serial number available for the phone representative and also a credit card for any potential out of warranty costs. You will not be charged without authorization.

We want to do everything we can to ensure that your printer meets or exceeds your expectations. Thanks for choosing Fujifilm.

4. Please allow up to 24 hours for our team to profile your equipment into our support database prior to calling our help desk. When registering your printer the same day of your purchase, it will avoid any delays in receiving support.

If You Need Help Desk Support

- For technical support with your DX-100 printer, call 1-800-800-3854, option #6. Please have your printer's serial number available for the phone representative
- A credit card is required for all support tickets to be created. Have a credit card ready for any potential out of warranty costs. You will not be charged without authorization.
- It is also important to be near your printer so that the proper support can be given.
