Introduction of Double-Sided Sheet Paper (Luster) and Optional Sheet Feeder for the Inkjet Printer "Frontier DX400W"

First of all, we would like to thank you for your great efforts in promoting FUJIFILM products. We are pleased to provide detailed information about the special double-sided sheet paper (Luster) and the optional sheet feeder, which are related products to the compact inkjet printer "Frontier DX400W" introduced in January 2025. For detailed information on the printer itself, please refer to the "Introduction to the Inkjet Printer Frontier DX400W".

1. MAIN FEATURES

(1) Double-sided Sheet Paper (Luster)

We have prepared two types of paper (210g/m², 243g/m²) that are thinner than the roll paper (FUJIFILM Quality Dry Photo Paper(245g/m²)). The semi-glossy luster paper, which is resistant to fingerprints, is ideal for products such as photo books and calendars. Additionally, with paper of different thicknesses, customers can choose according to their needs.

By using the printer driver, it can be operated in the same manner as a consumer IJ printer. It also supports PDF input, allowing for easy printing of data created in Photoshop and other programs.

It is possible to print one sheet at a time from the Rear Paper feeder that built in the printer. For customers who want to print continuously, we recommend using the optional sheet feeder.

(2) Optional sheet Feeder

The optional sheet feeder allows for continuous printing of up to 100 sheets (based on 230μm thickness).

It can be attached to the bottom of the main unit, maintaining a compact footprint, and can be used in conjunction with your roll paper.

Double-sided printing can expand your service offerings to include photo books, calendars.

2. SPECIFICATIONS

Double-sided Sheet Paper and Optional Sheet Feeder: Please refer to Appendix 1.

3. LAUNCHING SCHEDULE

Sales will begin in June 2025.

As the products are made to order, shipment will be three months after placing an order.

For more information, please contact EPSON, your local distributor.

We plan to introduce MS software that supports sheet paper in the fall of 2025.

4. PRODUCT NAME, SAP CODE, AND PRICE:

Please refer to Appendix 2.

5. COMMERCIAL AND PHYSICAL DISTRIBUTION FLOW

Please refer to Appendix 3

6. PROMOTIONAL MATERIALS (including DX400W main unit promotional materials):

Item	Schedule
Brochure/Product Images	April 2025 (Appendix 3)
Website	Middle of April 2025
Sales Document	End of April 2025

7. ATTACHMENT

Appendix 1 Specification

Appendix 2 Price List

Appendix 3 Brochure

For the details, please feel free to contact the FTYO person in charge.

Sincerely Yours
