Uncompromising usability along with compatibility

Multipurpose device with small footprint and easy setup

- Compact design with width of 590 x depth of 659 mm
- Select a right configuration of 1, 2 or 4 trays as per your growing requirements

2 tray configuration with its optimal height and adjustable UI makes it easy to operate for all (including people with special needs).

Shared machines for offices.

Increase to maximum paper capacity of 2,180 sheets*.

* 20 lb./75 gsm paper, Standard + 3 Tray Module (optional).

Exceptional colour accuracy and print quality

- High-resolution printing of 1,200 x 2,400 dpi achieved with LED printhead
- Smooth slating line and text reproduction with image enhancement processing

* Image Registration Control Technology.

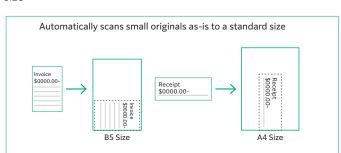

Direct scan to or print from USB for efficient operations

 You can directly print the documents stored on a USB flash drive or scanned data can be directly stored on a USB flash drive without using a PC

Quick scanning of high-volume originals

- Up to 80 ppm can be read at high speed in Scan
- Up to 130 sheets can be loaded
- One pass DADF will not damage the original document
- Instantly scan without manual entry of each original size
- Automatically converts custom size originals to standard size

Quick startup and output for greater efficiency

- Fast Boot Mode prepares the operation panel in 6 seconds*1
- Quick warm up in less than 28 second
- First Copy Output Time in 4.9 seconds*2
- *1: Depending on the status of the main unit and configuration of options, it may not operate or take more than 6 seconds.
- *2: A4 LEF for Apeos C3060 when in horizontal/Monochrome preferred mode.

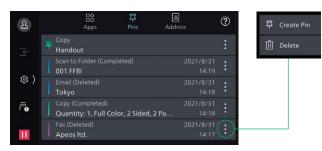

Quick and simple operability

Simple layout with easy navigation

Black and gray tone UI gives better contrast for easy recognition.

- Icons are evenly spread for easy recognition
- Consistent operation steps of each function for easy recall
- Home screen personalisation for ease of access to commonly used functions
- Pin regular settings for registering frequent or repeated jobs
- Clear visible light notifications for completed or error jobs
- Subtle sound notification for alert and attention

Flexibility in office layout

Supports wireless LAN environment*1.

- Supports free addressing in the office with Wi-Fi support
- Up to five Wi-Fi Direct multifunction devices can be connected at the same time
- Supports direct mobile printing*2
- Print Utility, AirPrint, and Mopria[®] Print Service are supported
- *1: Optional.
- * 2: When connecting to Wi-Fi Direct.

Smartphone becomes a "portable operation panel"

Seamless connectivity with mobile devices for Copy, Fax, Print, Scan*1 jobs using the Print Utility*2 application.

- Mobile device can be used as an alternative UI for operations control to minimise common touch points
- Frequent settings can be saved as "Favourites"
- Directly send fax or email with the addresses stored in the smartphone
- Minimise printer touch points for hygiene reasons

Note: Connect to machine via wireless environment or Wi-Fi direct connection.

*1: E-mail, Scan to Folder. *2: It can be downloaded free of charge from Google Play™ or App Store.

Various features saving time and effort in scanning operation

Scanned data can be transferred through a variety of methods including Email, URL, and send to PC (SMB/FTP/SFTP).

- Data can be sent by using multiple features simultaneously
- Improve your digitalisation process with features including automatic orientation of scanned page to upright position, correcting the skewed page, or removing blank pages
- In addition to TIFF and JPEG, the scanned data can be converted to PDF with searchable OCR enabled

Safeguard important information

Information is an important asset which should be protected at all cost

Protect from unauthorised user

Multiple options of setting user authorisation allow administrator to select a right combination as per given environment.

- Local Authentication
- Authentication by Remote Server
- IC Card Authentication*
- User-specific feature access
- Private Charge Print
- * Optional.

Additional layer of unwanted access can be created for specific users. (e.g. guests).

- Secondary Ethernet Kit*
- * Optional.

Protects Data

Protects against any malicious intent of hacking, tampering with device / system settings.

- Encryption of stored data
- Uses TPM* 2.0 chip for encryption key management
- Deletes settings and document information all at once
- * Trusted Platform Module

Protects the information by means of strong encryption while transferring it between devices, servers etc.

- Encryption of communication paths by SSL/TLS or IPsec
- Encryption when transferring via SMBv3 and SFTP
- Scan file encryption/signature
- Email encryption and signature by S/MIME
- TLS version limit
- Elliptic curve cryptography
- WPA3

Protect from unauthorised access

Protects device settings at multiple levels by clearly demarking change restrictions for different target audience - End users, IT administrators and Service Engineers.

- Service representative operation restriction
- Account lock to prevent unauthorised access
- Information for changing the default password
- Warnings displayed when using global IP address

Prevents unauthorised program from installing without notice. Robust IT audits are supported with device data logs for easy tracking.

- Software signature verification
- Remote update restrictions
- IP address filtering
- Tampering detection at startup and automatic restoration when tampering is detected
- Prevention of tampering during operation
- Audit log
- Audit log system transfer

Prevents operation errors

Prevents information leakage due to inadvertent mistakes by administrators and users.

- Scan documents to be delivered to fixed destination
- Re-enter fax recipient
- Annotations
- Watermark

Initiatives for environmental consideration

We are working to develop environmentally conscious products, including technologies that reduce the power consumption of multifunction devices and printers to achieve lower environmental impact.

Fujifilm Group introduced the certification program in which we clarify the environmental value of each product by assessments at the time of product development, conduct the evaluation based on our in-house certification criteria and certify the products* that are excellent in reducing environmental impact as "Green Value Products".

This product was certificated as a "Silver" rank product that reduces environmental impact at a higher level than industries' standard.

* Products and services excellent in reducing environmental impact are those designed in consideration of

environmental impact throughout their life cycle from acquisition of raw materials, production, usage,

Initiatives for energy conservation

 Achieve both high image quality and energy conservation by equipping the LED printhead that enables space and energy saving design, as well as EA-Eco toner that has lowtemperature fusing performance

disposition, to reuse.

 Reduce the power consumption with the smart power saving feature that solely powers on the required parts according to the functions being used by customers

Initiatives for resources conservation

- Functions contributing to paper consumption reduction
 - Private Charge Print, Scan, Paperless Fax, Pages per Side/ Multiple-Up etc.
