DX100 Fine Art Matte Paper Profile Setup

These instructions are intended to be used for printing to Fine Art Matte Paper using a print application using the Fine Art Matte Paper windows print driver. It is important to have the Fine Art Matte Paper file installed before beginning these instructions. Please refer to the Fine Art Matte Paper Install instructions. Below are the basic steps to setup the Fine Art Matte Paper profile. Do not setup this profile in the printing application your are utilizing. In your application, please select the option to where the "printer manages colors".

From the Color Management section.

Select the ICM Radio button. Then, Click the Advanced button.
